**Facilities Management**

Dear Sir/Madam,

On behalf of the MGPEI, I would like to invite you to join **Ing. Gordon Dimech**, who will be delivering a presentation on **Hub Facilities Management**, on **Thursday 11th March 2010**, at the Corinthia San Gorg Hotel, St. Julians

Facilities Maintenance (or Management) has continued to gain ground in the UK and most other European countries over the past year. As companies looked to find ways to control and cut costs, the considerable benefits that can be achieved through outsourcing the management of facilities was high on many company's agenda.

Effective facilities management, combining resources and activities, is proving to be vital to the success of any organisation. At a corporate level, it contributes to the delivery of strategic and operational objectives. On a day-to day level, effective facilities management provides a safe and efficient working environment, which is essential to the performance of any business – whatever its size and scope.

The presentation will include an overview of facilities management, case studies of successful FM implementation and discuss the local market situation, challenges and opportunities.

Ing Gordon Dimech is the General Manager at HUB Facilities Management, a recently set up company providing comprehensive facilities management services.

Most of us will be returning from work, college or university. Thus, we will serve complimentary refreshments at 5:45pm and the presentation will commence at 6:15pm. You are welcomed to invite other friends and colleagues interested in the subject to join us for this event

I look forward to seeing you there.

Best Regards,

***Johanna Pullicino***

Hon.Secretary

MGPEI
